## Objective

I'm a Gold Coast based design professional with a Bachelor in Digital media and a Certificate in Marketing and Management. I've got a strong passion for technology, specifically web communication and design, which I am eager to build upon, enhancing my skills and growing my professional career. My extensive skillset and experience allows for creative freedom in both digital and print outcomes, taking inspiration from the latest trends and popular software techniques. Importantly, I am eager and enthusiastic to learn new processes and programs to keep up with the constantly evolving technology industry.
